

Wild Foods & Medicines Participant Feedback Survey

Thank you for participating in our workshops. The data from this form helps us improve the work that we do. Please fill out an evaluation for EACH workshop that you have attended.

1. When was this workshop held?
2. Which of the following workshops did you attend on this data? Select all that apply.
 - a. Plant Teachings for Growing Social-Emotional Skills
 - b. Cultural Ecosystems
 - c. Northwest Tree Communities
 - d. Wild Food Traditions
 - e. Herbal Apothecary
 - f. Plant Technologies
3. What organization supported this workshop? (For example, a specific Tribe, an educational organization, etc.)
4. If the workshop was held for a specific audience, please describe here. (For example, a Tribal organization, K-8 teachers, etc.).

During the workshop, we covered several different skills. Here, we will ask you to rate your skills *before* the workshop, and then *after* the workshop.

5. Please select your level of confidence with the skill **BEFORE** this workshop.

	No confidence	Very little confidence	Some confidence	Quite a bit of confidence	Complete confidence
Integrating the "art of noticing," storytelling, and culturally-responsive teaching into class					
Facilitation skills including openings, closings, and plant games/activities					
Skills in identifying, ethically harvesting, and preparing plants covered in class					
Skills covered in class (for example, medicine making, cooking, plant technologies, etc.)					
(Cultural Ecosystems participants ONLY) Understanding and teaching about cultural ecosystems					
(Plant Teachings participants ONLY) Understanding and using social-emotional skills related to plants during challenging situations					

6. Now, please select your level of confidence with the skill **AFTER** this workshop.

	No confidence	Very little confidence	Some confidence	Quite a bit of confidence	Complete confidence
Integrating the "art of noticing," storytelling, and culturally-responsive teaching into class					
Facilitation skills including openings, closings, and plant games/activities					
Skills in identifying, ethically harvesting, and preparing plants covered in class					
Skills covered in class (for example, medicine making, cooking, plant technologies, etc.)					
(Cultural Ecosystems participants ONLY) Understanding and teaching about cultural ecosystems					
(Plant Teachings participants ONLY) Understanding and using social-emotional skills related to plants during challenging situations
